BABIL

INTERNATIONAL الدولية

Babil International

established in Iraq to provide high technical products, services and solutions in the field of automation, power generation, uninterrupted power supplies, measurement equipment, instrumentation, and fire fitting systems. The company succeeded to be the authorized distributor of Rockwell Automation products and solutions in Iraq. The company is in process to get more authorized distributor and dealership agreements for the Iraqi market to cover the above fields.

Who we are

Babil International founders gained, held, and strengthened their market leadership positions through their long experience in local and regional market. Babil International succeeded in recruiting many senior Iraqi engineers that they have long experience in the fields of the interest. They gained their local experience working as designers, installers and supporters. The mix of this local-regional market experience and the global one that we already have and that our vendors are providing is our strength to direct and manage our business in the Iraqi market. Further more the wide range of high quality products and approved solutions that we are offering plus the high rate of services that we are providing are behind our absolute success.

What we do

As authorized distributor of Rockwell Automation in Iraq, we are marketing and supporting Rockwell Automation products and solutions. We are covering this big and promising market through Systems and Technology Integrators. Babil International succeeded to sign with two local and one regional company to be the authorized System Integrators to cover Rockwell Automation clients needs and to submit the solutions behalf our company.

Company Structure

Babil International Head office is located in one of the prime business area in Baghdad. The company has three main departments to handle its business. These departments are:

1. Marketing Department
2. Support Department
3. Professional Training Department

Products & Solutions

Full range of Rockwell Automation products and solutions, Generators, Automatic Transfer Switch and parallel synchronization panels plus high rate of technical support and services that our engineers and/or our Technology Integrators' staff are providing.

Support

We are committed to provide 24/7 support. Our engineers are ready to answer the technical questions. They use all available methods to solve the problems remotely or by guiding engineers on sites. We train Customer's engineers in our training center, which is equipped with all required training materials and demonstration equipment.
